Almost Ready to Return to Cambodia

We are nearing the end of our time in the USA, and our return to Cambodia is quickly approaching! But as much as we are excited about our return to the field, we still need to finish raising our support before we leave.

Between the pledges that have already been sent in, and those that have been promised, *we still have 5% of our pledge budget to raise.*

In addition to our monthly pledge support, we still have a significant amount of cash to raise for the Nara & Grandpa Choy Sunday school program.

And you can help! If you are currently supporting our ministry, please consider a small increase in your pledge amount; if each of our supporters increased by just \$10 per month, we would have more than enough to return to Cambodia! If you haven't yet made a pledge, please pray and ask God if He would have you partner with us to reach the people of Cambodia through monthly support.

Please pray that we would be able to finish raising all of our support, and finish all the small details of moving our family back to Cambodia.

"The Last Letter" Helps to Launch Cambodian Church in California

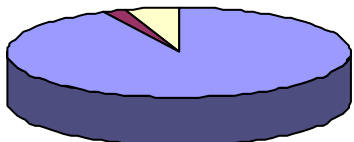

This past term in Cambodia we helped to produce a full-length evangelistic film called "The Last Letter", which was released in theaters in Cambodia.

A few months ago we were contacted by a home missionary working among the Cambodian community in California, asking if they could use the film for an upcoming outreach as part of launching a new church.

Over the Easter weekend "The Last Letter" was shown to a group of more than 200 Cambodians. The event has opened doors to the Cambodian community and has helped make connections with Cambodian families that have not been open in the past. We are excited to see "The Last Letter" continuing to be used to reach Cambodian people around the world!

Please Pray With Us!

- Pray we would finish raising our support quickly
- Pray that God would continue to use our media tools to reach Cambodians around the world
